

Please do not allow LPFM stations to take priority over current FM translator service. People in our community and in communities around the country listen to K-LOVE, which is often heard on FM translators. Hundreds of thousands of people listen to K-LOVE. We do not want this station forced off the air.

K-LOVE is important to those in our community. It provides information on charitable organizations that help those in need in our communities, including the drug addicted, homeless, AIDS-afflicted, and homebound elderly. K-LOVE provides encouraging, uplifting, positive music that is not found elsewhere. If K-LOVE were to be displaced by an LPFM broadcaster providing other programming, this positive, encouraging music would be gone and many people who rely on K-LOVE to encourage them and help them through the difficult trials of life will not have this station to listen to. Organizations who are given exposure through K-LOVE will not be able to spread the word about the work that they do without paying expensive advertising costs and they will lose the funding that is donated to them by K-LOVE listeners. Because of the direct impact that these organizations will experience and the positive encouragement that people in our communities enjoy from the wholesome values and family-friendly programming of K-LOVE, I believe that the service provided by K-LOVE is in the public interest.
